BIOGRAPHY

Moufpece Da Rippa aka BROOX born Kerry Lawrence Brooks II in San Antonio, TX & raised in Oklahoma City, OK began “penning lyrics to a pad” in 8th grade. What started that day as a hobby would quickly turn into curiosity. Which would lead to that hobby to become a permanent HABIT.

MPDR would rap battle & frequently write lyrics during his senior year in high school. He started recording tracks on an 8 track recorder in his room to get a feel of his voice. Shocked & amazed at what he heard, he began experimenting in different studio environments. MPDR, along with a childhood friend, would open GP Productions Studios in 2005.

From 2005-2007 he would travel, record, perform, & promote this undiscovered group of extraordinary individuals. Unfortunately for GP, with the encouragement of Leroy “Spock” Ezell, Ethan Harlan, & others decided to branch out to start his own brand, Down To Earth Music Group.
